

PlasmaGel3D

Training with Enrico Guarino, M.D., Ph.D.

August 17th 2023 9280 W SUNSET RD SUITE 210 LAS VEGAS, NV 89148

Objective

Objective: This hands-on training session aims to provide participants with a comprehensive understanding of the plasma gel injection technique. By the end of the training, participants should be able to perform plasma gel injections with confidence and safety.

9:00AM-9:15AM

Introduction and Overview

- Welcome and introduction to the training session
- Explanation of the plasma gel injection technique and its applications
- Overview of the training agenda and learning outcomes
- Discussion on the importance of safety protocols and patient selection

9:15AM-10:15AM

Scientific Explanation of PRP, Growth Factors, and Endoret Plasma Gel

- Understanding platelet-rich plasma (PRP) and its therapeutic applications
- Explanation of growth factors and their role in tissue regeneration
- Introduction to Endoret plasma gel and its composition
- Discussion on the scientific basis behind the plasma gel injection technique

10:15AM-11:00AM

Scientific Explanation of PRP, Growth Factors, and Endoret Plasma Gel

- Understanding platelet-rich plasma (PRP) and its therapeutic applications
- Explanation of growth factors and their role in tissue regeneration
- Introduction to Endoret plasma gel and its composition
- Discussion on the scientific basis behind the plasma gel injection technique

11:00AM-12:00PM

Injection Technique Explanation and Video Examples

- Explanation of various injection techniques and their applications
- Discussion on patient assessment, injection site selection, and marking
- Instruction on needle insertion angles and depths
- Presentation of video examples showcasing patients being treated using plasma gel injections

PlasmaGel3D

Training with Enrico Guarino, M.D., Ph.D.

12:00PM-1:00PM Lunch Break

1:00PM-2:30PM

Hands-On Practice: Plasma Gel Injections

- Participants engage in hands-on practice of plasma gel injections
- Instructors provide guidance and feedback during the practice session
- Participants practice different injection techniques and gain proficiency
- Troubleshooting common challenges and concerns during the practice session

2:00PM-3:00PM

Complications and Management

- Overview of potential complications associated with plasma gel injections
- Discussion on recognizing and managing complications
- Presentation of case studies highlighting complications and their resolution
- Q&A session

3:00PM-3:30PM

Review and Recap

- Review of key concepts, techniques, and safety protocols
- Recap of the training session and learning outcomes
- Final Q&A session

3:30PM-3:45PM

Certificate Conferment and Lesson Material Distribution

- Presentation of certificates of completion to participants
- Distribution of training materials, including handouts and resources for further learning

Notes

PlasmaGel3D

Training with Enrico Guarino, M.D., Ph.D.

Meet Dr. Enrico Guarino

SURGEON • INVENTOR • PIONEER • TEACHER

Guarino has 25 years of experience in general and cosmetic surgery. Known for exceptional expertise in breast, face, and body contouring treatments, Dr. Guarino is a meticulous surgeon committed to ensuring patient comfort and well-being. Additionally, Dr. Guarino is globally recognized as a top trainer for aesthetics practitioners, sharing valuable knowledge and skills.

As an Associate Professor at the Università di Camerino in Rome, Italy, Dr. Guarino takes on various responsibilities such as directing research, overseeing projects and internships, and providing guidance on career paths, degree requirements, and post-graduate education options. Dr. Guarino's contributions extend to developing and innovating new regenerative and aesthetic medical technologies.
